国際会議 IEEE GLOBECOM 2009 参加報告

孫 為 華^{†1}

GLOBECOM(IEEE Global Telecommunications Conference) は通信系技術を網羅する超大規模世界大会であり、今回は米国ハワイの観光地ワイキキにある Hilton Hawaiian Village にて開催されていた.GLOBECOM2009 に対する投稿件数は 3200 以上で,うち採録件数 1207 件(採録率 34.8%)、査読者が 5000 人にも及んだ.本会議および併設ワークショップ,チュートリアル合わせて 184 セッション(159 レクチャセッション、25 ポスターセッション)が 10 以上のパラレルで行われた.本稿では,2009 年 11 月 30 日~12 月 4 日に開催された GLOBECOM2009 に参加した筆者が,会議の様子および参加したセッション(Wireless Network, Sensor Network, Vehicle Network)に発表されたおもな論文の概要を報告する.

Report on IEEE GLOBECOM 2009

Weihua Sun^{†1}

IEEE Global Telecommunications Conference (IEEE GLOBECOM) sponsored by IEEE Communications Society. GLOBECOM covers all topics on network technologies, is one of the largest conferences in the world. In last year, GLOBECOM2009 took place from November 30th to December 4th, at Hilton Hawaiian Village in Hawaii, USA. GLOBECOM2009 received over 3,200 symposium paper submissions, a record high in IEEE GLOBECOM history. Each paper was reviewed by at least three of the more than 5,000 reviewers. As the result, 1,207 symposium submissions are accepted, for an overall acceptance rate of 34.8%. The papers are presented in 184 sessions(159 lecture sessions and 25 poster sessions). According to my experience attending at the conference, I report what was going on there and briefly survey some interesting topics on Wireless Network, Sensor Network and Vehicle Network.
