Dear Professor Yamashita,

I was very glad to learn from your letter dated 29 March that the Information Processing Society of Japan is in course of formation and will hold its first general meeting on 22 April, and I write to express the congratulations and good wishes of the British Computer Society. I am sure that your new Society will have an important role to play, both in the information processing field within Japan and in the sphere of international co-operation.

May I also offer you my personal congratulations on your nomination as President.

With kind regards and best wishes,

Yours sincerely,
M.V. Wilkes, President

Professor H. Yamashita
President-elect
Information Processing Society of Japan
Tokyo, Japan

My dear Professor Yamashita:

The news of the formation of the Information Processing Society of Japan was received and I am deeply gratified. The rate of progress in the development of digital computers in Japan and their application to information processing is a great phenomenon that has won the admiration of computer engineers throughout the world.

As Chairman of the Provisional Bureau of the International Federation of Information Processing Societies, may I extend a hearty welcome to your new society as well as my congratulations to you as President-elect of the new Information Processing Society of Japan. May this society flourish in both size and stature in accord with the explosive growth of the technical area it represents.

I look forward to having you represent the Information Processing Society of Japan to IFIPS and to having the pleasure of working with you again at our coming meeting in Rome on June 16 and 17, following the meeting of the International Computation Centre on June 14 and 15.

Best personal regards.

Sincerely yours,
Isaac L. Auerbach
